Dear

Further to your request for information dated 11 April 2017 the information requested is below

1) All in-patient and out-patient eating disorder services currently provided for CAMHS and adult services in your area

Kent and Medway NHS Partnership Trust and Sussex Partnership NHS Foundation Trust deliver out-patient eating disorder services for CAMHS and adults, a full list of locations can be requested from the provider. NHS Dartford Gravesham and Swanley Clinical Commissioning Group (CCG) has no in-patient ED beds in our area.

2) The budget and monies promised to deliver the CAMHS access and waiting time standards on Eating Disorders

The CCG didn’t receive separate money specifically for access and waiting times standards for EDS in any of the requested financial years, however, DGS CCG used part of their received EDS Transformation fund (£132k 15/16 £135k 16/17), the rest was spend in the community seeing CYP with less severe ED symptoms treating them with CBTe and peer support with family intervention.

3) The budget and monies received to deliver the CAMHS access and waiting time standards on Eating Disorders

The CCG received the promised amount of transformation monies for EDS as this was ring-fenced in 2015/16 and 16/17.
4) **Your total budget and expenditure for all CAMHS eating disorder services** (please include any additional monies received to deliver access and waiting time standards, as specified in Question 3)

2015/16 = £170k plus a proportion of the KMPT spend on eating disorders as they see children from age 14 and above, the split is not available for CYP and adults as this is part of the block contract, however, the total spend with KMPT is £180k (including adult EDS). 2016/17 = £173k, plus the proportion from KMPT (same as 15/16)

5) **Your total budget and expenditure for all adult eating disorder services**

The requested period = proportion of £184k (KMPT) Adult EDS is only commissioned from KMPT and exact information on the age split is not available. There may be some EDS spend within continuing care client but budget is not split.

6) **Your average and range of waiting times for CAMHS eating disorder services for both severe and non-severe cases**

SPFT (current provider) are not required in the current contract to collect specific data re EDS

7) **Your average and range of waiting times for adult eating disorder services for both severe and non-severe cases**

As of end of March they had no 14-18yr olds waiting more than 28days from referral to treatment and all urgent referrals were within 7 days

Kent and Medway have just procured an all-age specialist eating disorder service which will go live in September 2017. The new access and waiting time standards will be monitored closely under the new contract.

If you have any queries or concerns please contact me. Please remember to quote the reference number above in any future communications.

If you are unhappy with the service that you have received in relation to your request and wish to make a complaint or request a review of our decision you should write to Complaints. NHS Dartford Gravesham and Swanley Clinical Commissioning Group 2nd Floor Gravesham Civic Centre Gravesend Kent DA12 1AU or email at dgscq.complaints@nhs.net

If you are not content with the outcome of your complaint or review, you may apply to the Information Commissioner for a decision. Generally the ICO cannot make a decision unless you have exhausted the complaints procedure provided by the Clinical Commissioning Group. The Information Commissioner can be contacted at:

| Information Commissioners Office,  |
| Wycliffe House, |
