Dear

Further to your request for information dated 31 July 2017 the information requested is below

Please provide answers to the questions below, for the previous five financial years (2012-13, 2013-14, 2014-15, 2015-16 and 2016-17) and your agreed budget for financial year 2017-18.

NHS Dartford Gravesham and Swanley Clinical Commissioning Group (CCG) was incorporated on 1 April 2013, so did not exist in 2012/13.

The following questions all relate to services for adults (aged 18-65) - this excludes CAMHS (Child & Adolescent Mental Health Services), CYP IAPT (Children & Young People’s Improving Access to Psychological Therapies) and Early Intervention Services (EIS).

1. What was the total amount of money spent (£) on all psychological therapies (any type, across primary, secondary care and tertiary care) by your CCG?

Psychological Therapies are provided both on a Cost per Case basis, and within our Block Service Level Agreements (SLA) for Adult and Children & Young Persons Mental Health Services. It is possible to identify the cost of the cost per case spend, but we cannot specify the level of spend specifically on psychological therapies with the Block SLAs and are therefore unable to provide the total value of spend for any of these years.

2. What was the total amount of money spent (£) on IAPT (Improving Access to Psychological Therapies) services by your CCG?
The CCG able to provide the spend on IAPT cost-per-case but not for IAPT provided within Block SLAs. The following amounts are COST-PER-CASE ONLY:

2013/14: £1,060k; 2014/15 £1,156k; 2015/16 £1,369k; 2016/17 £1,071k; 2017/18 budget £1,073k.

3. **How much of this total spend on IAPT was made up of central-government funding earmarked for IAPT? Please answer as an amount of money (£).**

The CCG has not received any funding specifically for IAPT. Our spend is funded from our Baseline Allocation.

4. **Does your CCG commission primary care psychological therapies other than IAPT? If so, what was spent (£) on these? Please specify.**

The CCG does not commission any other adult psychological therapies in primary care; although we do have a budget of £135k for Eating Disorders in the current year.

5. **What was the total amount of money spent (£) on all secondary care (non-IAPT) psychological therapies by your CCG?**

Secondary Care psychological therapies would have been provided through our Block Service Level Agreements, and spend is not identifiable.

6. **Please provide a breakdown of the type of secondary care (non-IAPT) psychological therapy (e.g. cognitive behavioural therapy, dialectical behavioural therapy, family therapy, dynamic psychotherapy etc) and the amount of money spent (£) on each type of therapy by your CCG.**

The CCG does not have this information, but would suggest contacting our Providers: Kent and Medway NHS Partnership Trust for Adult Mental Health Services, and Sussex Partnership Foundation Trust for Children and Young Persons services.
