DGS 29 Diagnosis Rates for Dementia

Further to your request for information dated 28 April 2016 the information requested is below:

1. **What are the diagnosis rates for Dementia in the year 2015/2016**

NHS Dartford Gravesham and Swanley Clinical Commissioning Group achieved 63.8% diagnosis rate at the end of March 2016.

2. **How many surgeries are known to offer support clinics with the CCG for DGS**

At this point in time surgeries do not offer support clinics in practices specifically for dementia. Community Psychiatric Nurses work more closely with practices and memory assessment and support clinics in GP practices will be developed this year in practices that have accommodation capacity.
