1) What is the projected total spend on the costs of running the competitive tendering process for the financial year 2013/14?

NHS Dartford, Gravesham and Swanley Clinical Commissioning Group (CCG) does not hold this information as it forms part of a wider contract for a variety of functions and services with NHS Kent and Medway Commissioning Support Unit for the additional services provided by their partner organisation. In addition there is a wider cost within the CCG to cover the input from their subject matter experts for commissioner, finance, clinical, workforce and information.

2) And how many such tendering procedures were undertaken in that year?

There were no competitive tendering procedures undertaken in 2013/14, however there were procurements undertaken that did not require competitive tendering.
