Further to your request for information dated 1 February 2016 the information requested is below:

1. **Do you use a centralised management system* to manage the care of continence patients in your area?**

   NHS Dartford Gravesham and Swanley Clinical Commissioning Group does not use a centralised management system.

2. **If so, when did you start using the system?**

   N/A

   The year 2012/13 – pre-dated the establishment of the CCG. For the years 2013/14 and 2014/15 the CCG does not have a specific budget for continence care as patients requiring this service are referred as appropriate to Gynaecology and Urology. The CCG also has a community service that manages continence patients.

4. **The spend on continence care for the following years: 2012/2013, 2013/2014 and 2014/2015**

   The year 2012/13 pre-dates the establishment of the CCG. For 2013/14 to separately identify the spend on continence care as the vast majority of this would be delivered in outpatients in Gynaecology or Urology. Outpatient coding does not specify whether the appointment was for continence care.
