Further to your request for information dated 11 March 2016 the information requested is below:

NHS Dartford Gravesham and Swanley Clinical Commissioning Group (CCG) commissions mental health services for its patient population and this would include GPs that are registered with a GP Practice within the CCG’s boundary. Local information can be found on the Live it Well website or on the secondary mental health service websites such as Kent and Medway Partnership Trust (KMPT) and Sussex Partnership Trust. (See below) As GP practices are independent businesses, the GP Practice may have its own contact in place for mental health provision for their members of staff. The CCG would not hold detail of any specific arrangements each practice may have in place for its staff, a request would need to go to individual practices.
